B2, vitamin from the sea

B2 celebrates her 14th anniversary, a magnificent vessel brimming with strength, energy, and remarkable rejuvenation. B2 stands as the second largest vessel ever built by the renowned German shipyard Abeking & Rasmussen, and she truly shines among her peers. With her beautifully proportioned design, B2 offers the epitome of the superyacht lifestyle. She is a vessel that excels in every aspect, combining versatility and style in a unique way. The distinctive, strong lines conceived by the talented and international English design studio Raymond Langton continue to exude freshness and functionality, setting a standard that is hard to match. With an impressive volume of 2150 GT, B2 stretches to a length of 85.65 meters (281 feet) and has a maximum beam of 12.40 meters (40 feet 7 inches). Her hull construction is made of steel, while the superstructure boasts aluminum craftsmanship. These prestigious dimensions ensure that B2 never goes unnoticed. Fresh from a recent interior refit completed in July 2022, which was expertly designed by Winch Design, B2 is in fantastic condition and equipped with the latest technology. Automation and digital entertainment are seamlessly integrated on board. The luxurious

new interior features neutral tones complemented by deep marine blues and oceanic patterns, with meticulous attention to detail. The exterior furniture has also been renewed, and carefully selected artworks adorn the walls.

Across B2's five decks, accessible through circular stairs located at the center of the yacht or via the convenient glass elevator, guests - up to 22 in number - can discover various areas of comfort and recreation. The yacht offers 11 well-appointed rooms to accommodate them.

The main deck welcomes guests with a spacious and sophisticated salon located aft. It boasts contrasting elements of light and dark, with a splendid piano ready for romantic serenades. On the main alfresco deck, the generous space is divided between comfortable seating areas for relaxing chats, an open bar with convenient stools, and cozy sunbeds for basking in the sun. To complete the experience, there is a swimming pool with a glass bottom, situated above a gorgeous beach club lounge that can be enjoyed at any time of day.

Moving toward the bow, part of the guest accommodations can be found. This area includes a remarkably spacious VIP suite, four double guest

SEA LANE

cabins, and two twin cabins, all equipped with every modern comfort. The upper deck is predominantly dedicated to the owner. It features an owner's stateroom with a panoramic 180° view, two owner's bathrooms, and two dressing rooms, providing privacy and freedom. Additionally, an owner's office is available for those occasional work commitments even during vacation time. The upper deck also offers a spare room for guests who wish to stay close to the owner. At the center of the deck, a gym ensures guests can stay in shape, while a massage and beauty room enhances their sense of well-being. At the aft section of the upper deck, the dining room can be opened to create a seamless flow between the exterior seating and the dining area, allowing for alfresco dining and more casual lunches. The presence of the galley on this deck enables the organization of culinary delights with exquisite gourmet dishes. The bridge deck is where the captain directs all onboard operations and coordinates the crew from the state-of-the-art wheelhouse. This spacious area can comfortably accommodate many people who wish to observe navigation operations with ease. The captain has a dedicated room and per-

sonal office, always prepared for any eventuality. Aft of the bridge deck, the sky lounge invites intimate moments of relaxation with a piano bar and comfortable seating both indoors and on the exterior deck. A large table is set for enchanting breakfasts, making the aft setup on the bridge deck the preferred location for such occasions. Ascending to the sun deck, guests will find a Jacuzzi positioned forward, offering uninterrupted elevated views of the horizon. The Jacuzzi is flanked by cushioned sun pads, and several loungers can be positioned to suit individual preferences. Before or after soaking up the sun, guests can take advantage of the reserved and discreet massage room. As the sun sets, the sun deck becomes a hub for lounge aperitifs and parties filled with good music and sparkling stars, creating an atmosphere for all-night celebrations. The lower deck completes the guest hospitality setup with four guest suites and a TV room easily accessible for indulging in unforgettable movie experiences or engaging in gaming challenges using the various onboard entertainment options. Aft resides the multifunctional beach club lounge, which boasts fold-down balconies on both port and starboard sides, extending the usable space

right to the water's edge. At the bow, a professional and cohesive crew of 26 members finds their quarters, with 13 cabins at their disposal. The crew can relax and replenish themselves in the crew lounge and mess room located in the tank deck, after fulfilling their numerous onboard duties.

The tender garage spans the yacht's full beam and features port and starboard openings. Situated just ahead of the beach club, it provides ample space for a fleet of smaller watercraft and toys.

B2 is equipped with stabilizers for serene stays both at anchor and underway. It is powered by two powerful Caterpillar engines, generating a combined 3,998 horsepower, ensuring exceptional performance. With a maximum speed of 16.5 knots and a cruising speed of 15 knots, B2 boasts an impressive range of approximately 6,700 nautical miles under optimal conditions, allowing for voyages to magnificent marine destinations without the need for frequent stops. Guests can enjoy various onboard amenities for transfers to pristine beaches or exclusive jet-set locations. These amenities include a 12-passenger YachtWerft Mayer, accompanied by a crew, a 7.5-meter RIB, a Zodiac

Rescue Tender for watersports, 5 battery-powered water scooters, 2 elliptical paddle boards, 2 SUPs with paddles, and 2 kayaks. Endless fun is guaranteed.

With its impressive size, MLC compliance, and immaculate condition, B2 truly embodies the perfect yacht for multi-generational family enjoyment or for owners and charter guests seeking an exquisite vessel of unparalleled distinction.

B2 is part of the charter fleet of Hill Robinson to call on to embark on an unforgettable voyage of luxury and exclusivity aboard and is for sale through the international Monaco-based company Moravia Yachting, part of the same Hill Robinson Group. There is no excuse to not experience the perfect blend of sophistication, comfort, and adventure onboard the remarkable B2.
